Power Platform Portugal

Meetup #3 - 22nd of April 17:00 GMT+1 (Lisbon Time)

Power Automate 101

Getting started with Hyperautomation!

Power Automate brings together digital process automation, business process flows, robotic process automation, artificial intelligence, centralized approvals and much more! Join us as we begin to explore the impact that this technology can have in streamlining personal productivity and enterprise automation scenarios.

Code Review Tool

The screenshot displays the PowerCAT 'My Inspection App Review' interface. The 'App Analysis' section on the left contains two columns of toggle switches for various settings. The 'Screens Info' table lists app screens and their control counts. The 'Media Files' section shows a single file. The 'Network Trace' section provides a detailed log of network requests, including screen names, control actions, and request details.

App Analysis Settings:

Setting	Status	Setting	Status
Explicit Column Selection	On	Delayed Loading	On
More reliable concurrent function	On	Component Authoring	On
Debug Published Apps	On	Keep recently visited screen in memory	Off
Formula-level prefetching	Off	Enhanced performance for hidden controls	Off
Enhanced Delegation for Common Data Servi...	On	Use non-blocking OnStart rule	Off

Screens Info:

Screen	Controls
Home	166 controls
InspectionScreen	35 controls
EditScreen	35 controls
ProfileScreen	35 controls
RedirectToHome	2 controls

Media Files:

File Name	Size
0002.png	2 Kb
